Independent Auditors' Report

Board of Trustees The Century Foundation, Inc.

We have audited the accompanying financial statements of The Century Foundation, Inc., which comprise the statements of financial position as of June 30, 2021 and 2020, and the related statements of activities and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of The Century Foundation, Inc. as of June 30, 2021 and 2020, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Notes to Financial Statements June 30, 2021 and 2020

1. Organization and Tax Status

The Century Foundation, Inc. (the "Foundation") is a non-partisan progressive think tank, founded in 1919 and initially funded by Edward Filene, a man best known for his store's Basement which was established as a way to make goods affordable to working people. At the time of Mr. Filene's death in 1937, he was a close associate of President Franklin Roosevelt, one of the leading liberal businessmen in the country. Along the way, he was a champion of fair workplace and employee ownership strategies, all with an eye to ensuring that economic opportunity is available to all.

Until the end of the last century, the Foundation was known as the Twentieth Century Fund. Trustees over the years have included Theodore Sorensen, Arthur Schlesinger, Jr., John Kenneth Galbraith, Justice Robert Jackson and J. Robert Oppenheimer.

The Foundation has been determined by the Internal Revenue Service (the "IRS") to be a charitable and educational organization as defined in the Internal Revenue Code (the "Code") Sections 501(c)3. During fiscal year ended June 30, 2018, the Foundation notified the IRS of its intent to terminate its private foundation status under Section 507(b)(1)(B) of the Code effective July 1, 2017. The IRS has held that the Foundation will be treated as a public charity under Section 501(a) and 170(b)(1)(A)(vi) of the Code. Grantors and donors may rely on the public charity status during the ruling period and are entitled to the maximum charitable contribution deduction under the Code. Additionally, under Code Section 4940(d)(2), the Foundation is exempt from paying excise tax.

2. Summary of Significant Accounting Policies

Basis of Presentation and Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (US GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingencies at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

Presentation of Net Assets

Net assets are classified based on the existence or absence of donor-imposed restrictions. Net assets without donor restrictions are not externally restricted for identified purposes. Net assets with donor restrictions represent amounts that are restricted by donors that are to be held until the donor or time restriction has been satisfied.

Notes to Financial Statements June 30, 2021 and 2020

2. Summary of Significant Accounting Policies (continued)

Cash and Cash Equivalents

Cash and cash equivalents represent short-term investments with maturities of three months or less at time of purchase, except for those short-term investments managed by the Foundation's investment managers as part of their long-term investment strategies.

Restricted Cash

In connection with the Foundation's lease agreement (see note 9), the Foundation maintains a letter of credit as collateral in a separate bank account. The following is a reconciliation of cash, cash equivalents and restricted cash reported on the statements of financial position to the the statements of cash flows at June 30:

| 2021 | 2020 | | |
|-----------------------|-----------------------|--|--|
| \$ 275,628 390,222 | \$ 732,488 390,146 | | |
| \$ 665,850 | \$ 1,122,634 | | |
| | \$ 275,628 390,222 | | |

Fair Value Measurements

The Foundation follows US GAAP guidance on fair value measurements which defines fair value and establishes a fair value hierarchy organized into three levels based upon the input assumptions used in pricing assets. Level 1 inputs have the highest reliability and are related to assets with unadjusted quoted prices in active markets. Level 2 inputs relate to assets with other than quoted prices in active markets which may include quoted prices for similar assets or liabilities or other inputs which can be corroborated by observable market data. Level 3 inputs are unobservable inputs and are used to the extent that observable inputs do not exist.

The Foundation follows US GAAP guidance which removed the requirements to categorize within the fair value hierarchy all investments for which fair value is measured using the Net Asset Value ("NAV") per share as a practical expedient.

Investments Valuation

Investments are carried at fair value.

Notes to Financial Statements June 30, 2021 and 2020

2. Summary of Significant Accounting Policies (continued)

Allowances for Accounts Doubtful for Collection

The Foundation determines whether an allowance for uncollectible balances should be provided for receivables. Such estimates are based on management's assessment of its receivables, current economic conditions, subsequent receipts and historical information. Receivables are written off against the allowance for doubtful accounts when all reasonable collection efforts have been exhausted.

Concentration of Credit Risk

Financial instruments that potentially subject the Foundation to concentrations of credit risk consist of cash and cash equivalents, investments, grants and other receivables. The Foundation invests its cash and cash equivalents with a quality financial institution. Throughout the year, balances in this account exceeded the Federal insured limits. The Foundation has a diversified portfolio of investments across multiple asset classes, and routinely assesses the diversification and financial strength of its cash and investment portfolio to limit concentration of credit risk. The Foundation believes no significant concentration of credit risk exist with respect to its grants and other receivables due to the historical collection rate.

Property, Equipment and Leasehold Improvements

Property and equipment are recorded at cost and depreciated using the straight-line method over periods ranging from three to seven years. Leasehold improvements are recorded at cost and amortized over the term of the lease or asset life, whichever is shorter.

Deferred Revenue

Deferred revenue represents amounts received but not yet earned.

Deferred Rent

Rent expense is being recognized on a straight-line basis over the life of the lease. The difference between rent expense recognized and rental payments, as stipulated in the lease, is included in deferred rent on the statements of financial position. In addition, deferred rent also includes a period of free rent provided by the lease and is being amortized over the life of the lease.

Notes to Financial Statements June 30, 2021 and 2020

2. Summary of Significant Accounting Policies (continued)

Contributions and Grants

Contributions and grants are recorded as with donor restrictions if they are received with donor stipulations that limit the use of the contribution or that have time restrictions. When a restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, net assets with donor restrictions are reclassified as net assets without donor restrictions and reported in the statements of activities as net assets released from restrictions. Management expects contributions receivable at June 30, to be collected in the following periods:

| | 2021 | 2020 |
|------------------------------|-----------------|---------------|
| | | |
| Due within one year | \$ 1,919,259 | \$ 539,523 |
| Due within two to five years | | 87,500 |
| Total | \$ 1,919,259 | \$ 627,023 |

In-Kind Contributions

The Foundation recognizes the fair value of donated services which create or enhance nonfinancial assets, or require specialized skills provided by individuals possessing those skills and would typically be purchased if not provided by donation.

The Foundation received pro-bono legal services valued at \$3,915 and \$17,710 in 2021 and 2020. Such services have been reflected as both in-kind contribution support and as an expense within program expenses.

Investment Income Recognition and Investment Expenses

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Realized and unrealized gains and losses are included in the determination of the change in net assets.

Investment expenses included in the statements of activities consist of fees paid directly to the Foundation's investment advisors and managers, partnership expenses and foreign taxes withheld.

Notes to Financial Statements June 30, 2021 and 2020

2. Summary of Significant Accounting Policies (continued)

Functional Allocation of Expenses

The costs of providing various programs and related supporting services have been summarized on a functional basis in the accompanying financial statements. Accordingly, certain costs have been allocated among the appropriate programs and supporting services benefited. Refer to Note 8 for the classification of expenses by their functional allocation and policy for allocating such expenses.

Research Projects

The cost of research projects is recognized as incurred. Funds received on behalf of specific projects or programs are classified as net assets with donor restrictions.

Significant Concentrations

For the years ended June 30, 2021 and 2020, approximately 16% and 21% of the Foundation's workforce was covered by a collective bargaining agreement which expires on June 30, 2025.

Accounting for Uncertainty in Income Taxes

The Foundation recognizes the effect of income tax positions only if those positions are more likely than not of being sustained. Management has determined that the Foundation had no uncertain tax positions that would require financial statement recognition or disclosure. The Foundation is no longer subject to examinations by the applicable taxing jurisdictions for periods prior to 2018.

Reclassifications

Certain 2020 amounts have been reclassified to conform to the current year presentation.

Subsequent Events Evaluation by Management

Management has evaluated subsequent events for disclosure and/or recognition in the financial statements through the date that the financial statements were available to be issued, which is October 28, 2021.

Notes to Financial Statements June 30, 2021 and 2020

7. Retirement Plans

Retirement benefits for substantially all employees are provided through defined contributions by the Foundation and employees to individual annuity contracts with Teachers Insurance and Annuity Association and College Retirement Equities Fund. The Foundation matches employee contributions up to 5%. Employees are eligible for participation in the plan upon the completion of six months of service. The cost of the plan for the years ended June 30, 2021 and 2020 was \$195,756 and \$160,561. Additionally, employees have the option to contribute before-tax amounts to a separate annuity plan subject to limits determined by IRC guidelines. The Foundation does not contribute to this separate annuity plan.

8. Functional Expenses

Expenses are presented by functional classification in alignment with the overall mission of the Foundation. The allocation percentages are determined based upon a time analysis for all employees and functional classification of program (grant) expenses. The following tables present expenses by both their natural and functional classification for the years ended June 30.

9. Commitments

During 2012, the Foundation entered into a lease for office space in New York City expiring July 2028. The lease contains a ten month rent concession, which is being amortized using the straight-line method over the term of the lease. The lease contains a provision for security whereby the Foundation executed an irrevocable standby letter of credit ("LOC") for \$386,460. The LOC is collateralized by a separate bank account.

Notes to Financial Statements June 30, 2021 and 2020

9. Commitments (continued)

During fiscal year 2017, the Foundation entered into a lease agreement to rent office space in Washington, DC. The lease was terminated effective April 30, 2020.

During fiscal year 2018, the Foundation entered into an agreement to rent office space in Berkeley, California. The lease was terminated in July 2020.

Minimum lease payments by fiscal year are as follows:

| Thereafter | 883,848 |
|------------|---------------|
| 2026 | 407,930 |
| 2025 | 407,930 |
| 2024 | 406,141 |
| 2023 | 386,460 |
| 2022 | \$ 386,460 |

Subsequent to year end the Foundation entered into a new lease agreement to rent office space in Washington, DC expiring in March 2024.

Rent expense for the years ended June 30, 2021 and 2020 amounted to \$351,933 and \$369,632.

10. Risks and Uncertainties

The ongoing Coronavirus pandemic has resulted in substantial volatility in the global economy. While management has implemented measures to mitigate the impact of the pandemic, the extent to which the Foundation's operations are impacted will depend on future developments.
